The Bulgarian-born Omraam Mikhael Aïvanhov (1900-1986) was one of the great spiritual adepts of this century. He taught in France for nearly 50 years and has several thousand students around the world. In India he was hailed by a well-known Hindu yogi as the reincarnation of a solar sage from Vedic times. Indeed, the hidden spiritual aspect of the sun plays a significant role in his teaching, which he has described as a form of Solar Yoga. Although over 50 volumes of his talks are available in English, this is the first comprehensive introduction to his teachings in any language. Originally published in 1994, it has been revised to correct factual errors and add additional quotes by Aïvanhov, and has a new index and bibliography.
